CRITERION- VI

6. Governance, Leadership and Management

6.1 State the Vision and Mission of the institution

Surendranath evening College was established in 1961. The dream of 1961 has already crossed 54 long years and stands tall like an unquestionable reality. The college now has a rich past, a glorious present and a bright future.

Main vision of Surendranath evening College is to achieve and sustain high degree of academic excellence by providing quality education and training to all, irrespective of caste, creed and religion, economic status or physical health, to make students employable and finally to be a good citizen.

To fulfill the objective, many developmental programmes have been initiated keeping in tune with the changing scenario of education.

Our mission is to make our institution as a Centre of Potential Excellence in near future.

6.2 Does the Institution has a management Information System

Presently no MIS is present in the Institution . We have a Student Management Software for admission and database management of students.

6.3 Quality improvement strategies adopted by the institution for each of the following:

6.3.1 Curriculum Development

The College follows the Syllabus and Curriculum of Calcutta University. So we have no scope of curriculum development. However every department has its own academic calendar to run and complete the syllabus.

However, teachers take part in meeting of the Board of Studies from time to time as invitees. Some faculty members also participate in University curriculum development as member of Board of Studies.

6.3.2 Teaching and Learning

Though the syllabi are framed not by the college but by the affiliating university, each department uses some innovative processes in teaching and learning.

1. For quality improvement in the teaching learning process we adopt the process of one to one contact session, interactive class, solving of previous years questions.
2. We ensure discipline in regular classes. The teachers are encouraged to take part in OC, RC, various staff training programme, workshop on discipline related areas.
3. Needful and up to date teaching materials are provided for continuous improvement of teaching – learning activities. Internet access is provided to teachers free of cost. Computer facilities are given specially to those students who do not have access to such facilities elsewhere.
4. Multiple choice questions are set in the term-tests by few departments to encourage the students to read the text books thoroughly.
5. Technology enabled Teaching Learning process is practiced in college. Computers, multimedia, LCD Projectors and OHP are used by some faculties.
6. Despite shortage of faculty in some departments, efforts are made to cover as much of the prescribed syllabus as possible and to ensure sufficient time for completion of experimental work.

6.3.3 Examination and Evaluation

1. Some departments conduct periodical tests & class tests. The examined papers are shown to the students and the guardians are informed about the progress of students in the Parent-Teacher meetings.
2. Mid-Term and Test examinations are held for all the departments and for students of all the years.
3. A group of teachers (Examination sub-committee) conducts the university examinations. The appointed teachers take part in paper setting, paper examiners, scrutiny, head examiners etc and act as per university guidelines.
4. MCQ type testing has been introduced for the General and Hons. programs for all three years in some departments.

6.3.4 Research and Development

1. The college encourages the teachers to apply for Major/ Minor Research Projects, FIP etc.
2. Space and necessary infrastructural support is provided for research work.
3. College authority sanctions leave; adjusts classes with flexi-timing and exempts from some other co-curricular activities.
4. College authority also encourages attending National/International seminars/ Workshop/ Conference.

6.3.5 Library, ICT and physical infrastructure / instrumentation

1. The library has an Advisory Committee in the form of a library sub-committee holds meeting regularly for supervising, advising, assessing needs and taking measures for overall development and smooth running of the library.
2. Books are catalogued. Teaching faculty can directly select books from the stack room and issue them. Moderate sitting arrangements are maintained in the library for reading purpose. Some departments maintain seminar library for providing additional books to their students.
3. Stock verification is done regularly. Pest Control measures are undertaken.
4. Computers are installed in the library for cataloguing system and also to facilitate the activities in the library. Internet facility is also provided in the library.

6.3.6 Human Resource Management

The human resource of the college is managed in a free and democratic manner.

1. For the management of the students' affair, the college has a students' union whose elections are held annually as per university statutes.
2. The teachers' council and the non-teaching staff association look after the affairs of the teaching and non-teaching staff respectively.
3. Above all, there is a Governing Body that manages and develops the total human resource of the college. The Principal keeps close contact with all departments, office & library and assesses the man power. If any shortage found, then the Governing Body is informed and necessary steps are taken for early recruitment. Sometimes it takes time to fill up the permanent posts owing to official formalities and Government policies. During this period the posts are generally filled up on ad – hoc basis so that the system is not disrupted. The college's aim is to make optimum use of the available human resource.
4. College requests all pass-out students to enlist themselves with the alumni association and convey their future studies & placements.

For quality improvement of the teachers, the teachers are assessed by the students regularly through Student Feedback. Teachers are also encouraged to carry out research works, upgrade and update knowledge by attending refresher course, orientation course, short term course etc. The teachers are also facilitated for their carrier progression

6.3.7 Faculty and Staff recruitment

Faculty and staff are recruited with transparency as per Government norms/rules.

The College Service Commission recruits faculty members and the College Governing Body recruits the staff members.

The vacant sanctioned faculty posts are informed to the College service commission from time to time following the 100 point roster. CSC sends its recommended candidates from the list of selected candidates prepared by them to the college. The college recruits the recommended candidates and arranges for approval of their posts from the government.

Regarding staff recruitment, the college publishes the vacancy of staff posts sanctioned by the West Bengal Government through News Papers/ Web-site and screens by a committee constituted as per the Government Rules. Roster system is strictly followed. The recruitment process is a lengthy procedure. After selection, approval of the appointment is taken from the Govt of West Bengal again.

6.3.8 Industry Interaction / Collaboration

The College has no such collaboration with industry. However several industries show interest for recruitment and training of students of the college and conducts Campus Interview and Training Programme for the purpose. These programmes ultimately benefit the students of the college.

6.3.9 Admission of Students

The college takes steps for wide publicity through Notices, hoardings, banners, prospectus, web- site etc. for student admission. Online admission process is not yet introduced. Merit Lists are displayed and admission done accordingly. However, the college follows the reservation norms as laid by Govt. Pre Admission counselling of students are done to identify their area of interest and to guide them to choose their subject

6.8 Does the University/ Autonomous College declare results within 30 days?

For UG Programmes

Yes

No

Calcutta University holds and declares results of Under Graduate courses; hence the college has no control over the date of publication of results. The departments of the college take care to publish results of internal exams held by the college.

For PG Students

At present there are no PG Programmes offered by the college; hence publication of results does not arise.

6.9 What efforts are made by the University/ Autonomous College for Examination Reforms?

No such effort is made by the affiliating University. However, various departments of the college conducts Departmental class tests/Periodical tests regularly.

6.10 What efforts are made by the University to promote autonomy in the affiliated/constituent colleges?

NOT APPLICABLE

6.11 Activities and support from the Alumni Association

Many departments organize picnic where ex-students participate and interacts with present students. Frequent interaction with ex-faculty members including alumni are undertaken in an informal manner for improvement of the basic teaching-learning process as also for other related matters.

6.12 Activities and support from the Parent – Teacher Association

The College do not have any Parent –Teacher Association. But some departments hold meeting regularly with Parents for providing them feedback about the progress and drawback of their wards.

6.13 Development programmes for support staff:

The Computer Science Department and the Placement and Training Cell of the College organize Computer Awareness and Computer Literacy Programme for non-teaching employees

6.14 Initiatives taken by the institution to make the campus eco-friendly

The Campus is kept clean of natural wastes, e-wastes and plastics through regular sweeping, wiping and clearing of such wastes.

An aquarium is maintained and potted plants are placed in the open space to make the campus eco-friendly.

Best practices - I

1. Title of the practice:

Decentralization of administrative works.

2. Goal:

The aim of the practice is to cater to the students with best possible service regarding official works. In principle, the institute reckons that students are here to learn and thus wants them to devote most of their presence in college to their studies only. But some official works such as applying for scholarships, collecting railway concessions, university admit cards are essential and a majority of students remain engaged in these works, thereby losing academic hour. The practice of decentralization of these type of administrative works are initiated to help the students being more committed to their studies.

3. The context:

In recent years, there is a huge rush of admission in all streams while no recruitment has taken place in terms of administrative staffs. Under this condition, it is a really a challenge to this institute to serve the large volume of students with such minor staff strength in office. Often it is seen that a huge queue is formed by the students just to get their identity cards or admit cards. Many important academic activities are lost in this way. The issuance of scholarships as well as other type of concessions are another mode of activity which requires decentralization as it is not possible for a single person to keep track of all these type of works.

4. The Practice:

This practice of decentralization of official work is introduced from 2011 onwards to overcome the difficulties faced due to the immense increase of student strength. It is being implemented by division of responsibilities to respective departments. Issue of admit cards as well as other examination related documentation are taken care of by the departmental staffs as well as faculty members. The scholarship schemes and issuance of concessions are served by designated committees formed with faculty members.

5. Evidence of success:

Institute considers it to be a success as students are getting information and service through a very orchestrated way. Teaching hours of students are not lost due to these type of official works. The students are not forced to waste their valuable time before examination.

6. Problems encountered and Resources required:

Main problem for this decentralization work is to maintain co-ordination between various departments as well as monitoring the work done at different levels. Some of the departments do not have adequate staff strength to cater to the need of their students.

7. Notes:

Decentralization of the administrative works to the efficient and collective body results in clean and transparent administrative system with much reliability. The stake holder specially the staff members get the opportunity for direct involvement in all round development of the college.

Best practices – II

1. Title of the practice:

Student Education Support Scheme (SESS)

2. Goal:

Aim of this practice is to cater to the financially weak students to help them continue their academic activities. It is in principle a commitment of the institute to arrange for financial support to the needy candidates so that they are able to pursue higher studies.

3. The context:

The college is situated beside Sealdah station and many of the students are from poor families of this state. So it is necessary for them to receive some sort of financial assistance to carry on with their academic activity. There are various Government and non-government schemes which can help them in this regard. As the number of students coming from lower income group is more, so it is really a complicated problem for addressing their acute hardship and the college has to face a challenging problem.

4. The Practice:

The college has a “Students Aid Fund Committee” comprising representatives of teachers and students . It invites application from the poor, meritorious students with proper supporting documents. After screening, the committee selects a number of selected students and distribute cheques among them. . Due to financial constraints limited number of students has benefitted. The college has also granted free-ship to some students from its own fund.

5. Evidence of success:

Due to this financial support many students are getting the scope to pursue for higher studies. Some of them have been graduated as a result of this practice.

6. Problems encountered and Resources Required:

The college and the Teachers’ Body have to face a lot of problems in generating the Fund to a desired level. Moreover, the number of students from lower income group is also high. So, the quantum of support is not sufficient.

7. Notes:

In India many families are still below poverty line and at the same time literacy rate is not satisfactory. In this context, more financial support from any organisation may catalyse the process.
