Analysis of Feedback for the session 2022-2023

Feedback was collected from Students and was analysed with the help of pie chart. The analysis on the feedback received from our primary stakeholder students helped us in identifying the gap in the syllabus and the areas the College needs to work upon. These were discussed in details in IQAC and the following report was made for placing it before the Governing Body:

The total response of 451 students were compiled and analysed by the IQAC:

- Students said that overall 80% of the syllabus was covered.
- The students need a little more participative learning method for enhancing their learning experiences.
- Students showed a little dissatisfaction about the ICT facilities of the college and thus IQAC recommend to take initiatives to improve on the ICT facilities, converting class rooms into smart classrooms with the portable ICT tools, dedicated smart class rooms and state of the art and upgraded laboratories.
- Students need mentoring on individual level.

ACTION TAKEN ON STUDENT FEEDBACK, 2022-2023

The feedback collected from students underwent rigorous analysis by the Internal Quality Assurance Cell (IQAC) and was deliberated upon during the 46th meeting of the Governing Body on 01.12.2023. Quantitative analysis highlighted areas requiring improvement, prompting the implementation of the following measures to address student concerns and align with their expectations:

- a) **Academic Audit and Remedial Sessions:** Recognizing the dissatisfaction regarding syllabus completion, the Governing Body directed the IQAC to conduct a department-wise analysis. This led to the implementation of academic audits and the organization of remedial classes and doubt-clearing sessions by respective departments.
- b) **Promoting Participative Learning:** To foster participative learning environments, departments were encouraged to organize debate and quiz competitions, stimulating greater student engagement and enthusiasm in learning.
- c) **Enhancing ICT Facilities:** Addressing feedback concerning ICT facilities, initiatives were undertaken to procure additional computers and ensure fast internet access campus-wide. Furthermore, the acquisition of projectors enables teachers to utilize PowerPoint presentations, enhancing instructional delivery.
- d) **Student Mentoring Programs:** Departments were tasked with implementing student mentoring programs, assigning faculty members to provide guidance and support to students within their respective disciplines.

These measures reflect our commitment to continuously improving the educational experience and meeting the evolving needs of our student body.

Teacher's, Employer's and Alumni Feedback Analysis Report for the session 2022-23

The Teacher's, Employer's, and Alumni Feedback was taken regarding the syllabus and its transaction (CBCS) 2022-2023. As per the analysis report we have seen that most of the teachers are satisfied with the curriculum design and implementation but there may be scope for improvement. However, there is room for improvement, as they have suggested the need for some innovation in curriculum preparation.
