(NAAC Re-accredited in 2016)

Date: 14.07.2023

## Notice

A **30 hours** Add-On course on “*Awareness of Cyber Security*” will be organized by the department of *Computer Science* in association with **IQAC, Surendranath Evening College** in offline mode only, which will be commenced on and from 01.08.2023.

Those (other than Computer Science students) who are interested to join the course are requested to collect the registration form from Computer Science department and do their registration as early as possible.

**Prerequisites:** Any pursuing undergraduate students.

DR. Himadri Nath Saha

(HOD, Dept. of Comp. Sc.)

Dr. Jafor Ali Akhan

Principal

Principal  
Surendranath Evening College  
Kolkata - 700009

## **Course Objectives**

Department of Computer Science, Surendranath Evening College is introducing a 30 hours Add-on course to impart the knowledge on Awareness of Cyber Security to manage the regular hazards faced by the e-user among the pursuing undergraduate students in the college.

Eligibility: Any pursuing undergraduate student from all departments.

## ***Course Outcome***

- Students will learn what common Cyber threats are.
- They will learn how to maintain Data Privacy and Device Security.
- What measure they follow for remote work securely.
- Precaution required during use of Public Wi-Fi
- Need to maintain Password Hygiene

# SURENDRANATH EVENING COLLEGE

Add-On course: "Awareness of Cyber Security"

Marks: 30

Time: 1 Hr.

Candidate Name: \_\_\_\_\_

Stream: \_\_\_\_\_

Semester: \_\_\_\_\_

College ID: \_\_\_\_\_

Answer any all questions:

1. What is Cyber Security?  
a) Cyber Security provides security against malware    b) Cyber Security provides security against cyber-terrorists  
c) Cyber Security protects a system from cyber attacks    d) All of the mentioned
2. What does cyber security protect?  
a) Cyber security protects criminals    b) Cyber security protects internet-connected systems  
c) Cyber security protects hackers    d) None of the mentioned
3. Who is the father of computer security?  
a) August Kerckhoffs    b) Bob Thomas    c) Robert    d) Charles
4. Which of the following is defined as an attempt to steal, spy, damage or destroy computer systems, networks, or their associated information?  
a) Cyber attack    b) Computer security    c) Cryptography    d) Digital hacking
5. Which of the following is a type of cyber security?  
a) Cloud Security    b) Network Security    c) Application Security    d) All of the above
6. What are the features of cyber security?  
a) Compliance    b) Defense against internal threats    c) Threat Prevention    d) All of the above
7. Which of the following is an objective of network security?  
a) Confidentiality    b) Integrity    c) Availability    d) All of the above
8. Which of the following is not a cybercrime?  
a) Denial of Service    b) Man in the Middle    c) Malware    d) AES
9. Which of the following is a component of cyber security?  
a) Internet of Things    b) AI    c) Database    d) Attacks
10. Which of the following is a type of cyber attack?  
a) Phishing    b) SQL Injections    c) Password Attack    d) All of the above
11. Which of the following is not an advantage of cyber security?  
a) Makes the system slower    b) Minimizes computer freezing and crashes  
c) Gives privacy to users    d) Protects system against viruses
12. "Cyberspace" was coined by \_\_\_\_\_  
a) Richard Stallman    b) William Gibson    c) Andrew Tannenbaum    d) Scott Fahlman
13. In which year has hacking become a practical crime and a matter of concern in the field of cyber technology?  
a) 1991    b) 1983    c) 1970    d) 1964
14. Governments hired some highly skilled hackers for providing cyber security for the country or state. These types of hackers are termed as \_\_\_\_\_  
a) Nation/State sponsored hackers    b) CIA triad    c) Special Hackers    d) Government Hackers
15. Which of the following act violates cyber security?  
a) Exploit    b) Attack    c) Threat    d) Vulnerability

16. Which of the following actions compromise cyber security?  
 a) Vulnerability    b) Attack    c) Threat    d) Exploit
17. Which of the following is the hacking approach where cyber-criminals design fake websites or pages for tricking or gaining additional traffic?  
 a) Pharming    b) Website-Duplication    c) Mimicking    d) Spamming
18. Which of the following is not a type of peer-to-peer cyber-crime?  
 a) MITM    b) Injecting Trojans to a target victim  
 c) Credit card details leak in the deep web    d) Phishing
19. A cyber-criminal or penetration tester uses the additional data that stores certain special instructions in the memory for activities to break the system in which of the following attack?  
 a) Clickjacking    b) Buffer-overflow    c) Phishing    d) MITM
20. Which of the following do Cyber attackers commonly target for fetching IP address of a target or victim user?  
 a) ip tracker    b) emails    c) websites    d) web pages
21. Which of the following is defined as an attempt to harm, damage or cause threat to a system or network?  
 a) Digital crime    b) Threats    c) System hijacking    d) Cyber Attack
22. They are nefarious hackers, and their main motive is to gain financial profit by doing cyber crimes. Who are "they" referred to here?  
 a) White Hat Hackers    b) Black Hat Hackers    c) Hactivists    d) Gray Hat Hackers
23. IT security in any firm or organization is maintained and handled by \_\_\_\_\_  
 a) Software Security Specialist    b) CEO of the organization    c) Security Auditor    d) IT Security Engineer
24. Where did the term "hacker" originate?  
 a) MIT    b) New York University    c) Harvard University    d) Bell's Lab
25. What is the existence of weakness in a system or network is known as?  
 a) Attack    b) Exploit    c) Vulnerability    d) Threat
26. Which of the following is an internet scam done by cyber-criminals where the user is convinced digitally to provide confidential information.  
 a) MITM attack    b) Phishing attack    c) Website attack    d) DoS attack
27. Which of the following is not a step followed by cyber-criminals in data breaching?  
 a) Exfiltration    b) Research and info-gathering    c) Attack the system    d) Fixing the bugs
28. Which of the following online service's privacy cannot be protected using Tor?  
 a) Browsing data    b) Instant messaging    c) Login using ID    d) Relay chats
29. Which of the following term refers to a group of hackers who are both white and black hat?  
 a) Yellow Hat hackers    b) Grey Hat hackers    c) Red Hat Hackers    d) White-Black Hat Hackers
30. Which of the following is not an email-related hacking tool?  
 a) Mail Password    b) Email Finder Pro    c) Mail PassView    d) Sendinc
30. Which of the following DDoS in mobile systems wait for the owner to trigger the cyber attack?  
 a) botnets    b) programs    c) virus    d) worms
